Note

The Deputy Commissioner on his inspection of the D-b Lock-up at Chickmaglur on the 22nd August 1900 has recorded the following remarks in the Visitors' Book :—

" ... As regards the buildings, the kitchen at present is under repair and as they have not begun yet, I think the best plan will be to demolish the whole thing and rebuild it on a much smaller scale and have it an open building with an iron sheeting roof. Mr Fernandez agrees with me and an estimate will accordingly be made out. As regards the other buildings the centre block is almost useless and I would suggest its demolition, Small wards bring

being 2 put up separately with corrugated iron sheeting roofs and sides. this would be done very cheaply and would not entail the annual repairs now required to the old mud buildings, which are quite useless and unsafe."

~~Not~~

The above suggestion of the Dy Comr was approved of by the Inspector General of Prisons, who called for an estimate. An estimate with plan has accordingly been ~~forwa~~ prepared and submitted to Govt for sanction. The extra cost amounts to Rs 1868-

A & B seem quite suitable for the present. C may be dismantled and its materials carefully reserved for such use as may be decided upon in future. The only work which should at once be undertaken is the improvement of the kitchen. The cost of this may be debited to General Charges in the Prisons' Budget. Male Prisoners (both under trial & convicts) may be employed in A & female Prisoners in B. The Estimate is returned unsanctioned as no immediate need for the work is provided for herein. Copy of a minute in the Visitor book of the District Lockup at Chickanadiore by the Deputy Commissioner, Kadur District.

Visited the jail this morning with Dr. Fernandes. - There were three rigorous prisoners, 1 Simple and 2 under trial prisoners. - Total 6 in the Lockup. At present the prisoners are at work in the garden, which is nicely kept up. The premises are nice and clean and well looked after.

As regards the buildings, the Kitchen at present is under repair and as they haven't been begun yet, I think the best plan will be to demolish the whole thing and rebuild it on a much smaller scale and have it an open building with an iron sheeting roof. Dr. Fernandes agrees with me and an estimate will accordingly be made out.

As regards the other buildings the Centre block is almost useless and I would suggest its demolition. Small rooms

being fastened separately with Corrugated iron Sheeting Roofs and sides, this would be done very cheaply and would not entail the annual Repairs now required to the old mud buildings, which are quite useless and unsafe.

Correspondence ending with letter No. 1033/J dated 23rd October 1902, from the Inspector General of Prisons in Mysore, on the subject of certain improvements to the District Lock-up at Chikmaglur.

Order thereon P. 7534. 28/11/02.

Government observe that the buildings marked A and B in the sketch forwarded with the letter read above seem quite ample for the present, the former being utilized for the confinement of male prisoners (both undertrials and convicts) and the latter for female prisoners and that

the building marked C may be dismantled, its materials being reserved for such use as may be decided upon in future.

The only work which seems to require to be undertaken is the improvement of the Kitchen. But before passing orders, the Inspector General is requested to ascertain and report what the probable cost of this would be.
